Montgomery County at New Orleans.

The County Court appointed

Esqrs., Anderson, Slaughter and

Corban a committee to consider the

advisability of appropriating \$250

for the purpose of making a display

at the New Orleans Exposition, and

report at the July term. The Com-

mittee was appointed on the motion

of Esqr., Slaughter who is strongly

in favor of the appropriation and

from what we can learn of the views

of the other members of the commit-

tee, the report is likely to be agree-

able to the enterprise. Several coun-

ties in the State made appropriation

for the purpose at the January

court and quite a number of others

fell into line last Monday. As the

legislature will not meet until after

the Exposition has been opened,

this is the only means by which the

State can make a creditable display

in the large space allotted to her.

Montgomery county must be rep-

resented there, whether the means

come from public appropriation or

private subscription, and the for-

mer is the safest plan to rely on.

With the immense mineral wealth

and varied agricultural productions

of this county, a much better dis-

play can be made than by those

West Tennessee counties that ap-

propriated money in January. It

will be a lost opportunity for ad-

vancing our material interests if the

project should fail.

Clarksville Industries.

We paid a pleasant call to the

large saw mill of the Clarksville

Lumber Company Monday

afternoon, and were shown through

the establishment by one of the

gentlemanly managers. The mill

is situated on the river bank beyond

the railroad bridge, and is a well

arranged two story structure. The

machinery used is all of the latest

invention and the most improved

pattern. It is wonderfully com-

plete. The way logs can be hauled

up from the river and placed in

position to meet the saw, with the

expenditure of such little force, is

really astonishing. The mill had

to suspend work during the recent

high water, but has resumed opera-

tions again, and is doing a thriving

business.

On the same trip we called in at

the big tobacco factory in South

Clarksville, of which Mr. B. A.

Spicer is superintendent. We found

the factory full of work with a

hundred thousand pounds of toba-

cco that has been contracted for yet

to come in. The factory will export

to Europe 400 or 500 hogheads of

strips this season. Mr. Spicer is an

energetic business man, and well

suited for the head of such a large

establishment.

Another Story.

The Commercial Telegram of To-

ledo, Ohio, published Tuesday

morning a remarkable letter from a

distinguished citizen of Cincinnati,

giving a new version of the story of

the riot. He states that the home

papers dare not tell all that their

reporters know about the riot; that

the Coroner dare not hold an in-

quest, because the testimony would

show there was no mob, no need of

the military and no need for them

to open fire. That they that such

unoffending people, and that such

of the police and militia as

were shot were shot by the militia;

that Sheriff Hawkins has no brains

and lost his head; that the firing

was utterly uncalled for and cow-

ardly; that the bystanders could not

believe that bullets were being

fired until they saw men falling.

The letter was very lengthy and

criticizes the entire management of

the Governor and his military staff,

speaking with the utmost severity

of the fear and foolishness which

thrusty frenzy of the Sheriff with

which he infected the militia.

The number of members in the

Order of the Golden Cross is about

10,000, of which 8,000 are in the ju-

nior and 2,000 in the senior class.

The order has been in existence now

eight years, and has had 85 deaths

in the senior and 187 deaths in the

junior class, making 292

deaths in all, or about an average of

forty per year. This is an exceed-

ingly small mortality considering

that it receives members up to

sixty-five years of age. The grand

commandery of this order will meet

in this city on the 15th inst.

A BLACKSMITH named Bliss

killed a man named William H.

Temps in New Albany, Indiana,

Saturday night, by striking him

with a pair of brass knuckles. The

blow was entirely unprovoked.

Temps was an old man and a stran-

ger in New Albany. Bliss met him

on the street and struck him out

of pure wantonness. A large

crowd gathered at the jail after the

murder had been arrested, and

talk of lynching was freely indulg-
